

Trimble FieldMaster Navigation

Truck-Specific, Specialized In-Cab Routing

Your drivers need more than just driving directions. They need to be provided safe, compliant and efficient navigation to their destinations. Trimble FieldMaster Navigation takes into effect the size, weight, and cargo of your vehicles and compares that with street restrictions, bridge clearances, and turn radiuses, to calculate the most reliable route for your vehicle's capabilities.

In-Cab Navigation Features

- ▶ Ability to select between recommended and alternate routes
- ▶ Map display with truck specific Points of Interest and road restrictions
- ▶ ClearTurn to navigate intersections

ClearTurn allows drivers to navigate intersections

Lane Assist helps drivers navigate lane changes

- ▶ Voice guided, turn-by-turn directions with spoken street names
- ▶ 2D, 3D, and Driver Safety Views
- ▶ Lane Assist to navigate lane changes

FieldMaster Navigation Benefits

Reduce risk of costly bridge strikes and collisions by using truck compliant routes

Lower fuel costs by reducing mileage by 7-10% on average

Improve driver safety and satisfaction with safe, reliable guidance through the route

Keep your drivers focused on the road by locking the application when moving

Boost route compliance by monitoring driver's adherence to planned routes

Improve driver retention and recruiting by providing a rewarding tool to enable their success on the job

Eliminate tickets with clear posted speed limits and visual and audible warnings for speeding

Save network data and speed up route generation with map data that is stored on the device
